

Hospital Medication Management Optimisation

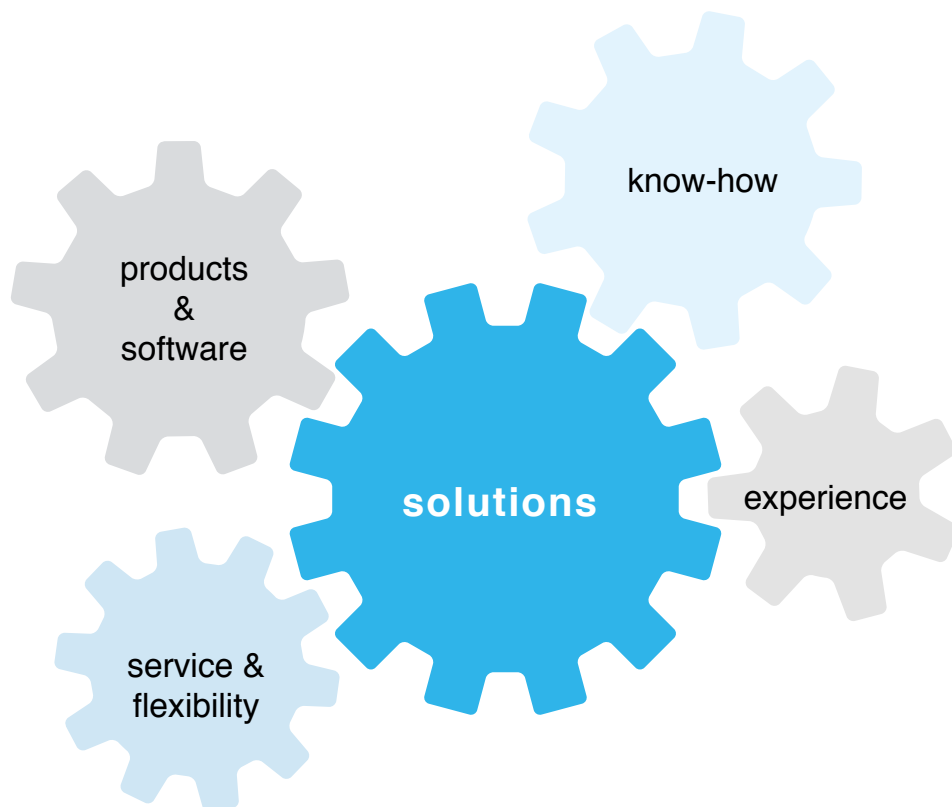

Access
Automated Dispensing Solutions

COMPANY GOALS

TouchPoint Medical European Headquarters is based in Belgium and has an extensive range of products available for controlled storage and implements these in various markets, with the following objectives:

SAVING SPACE
SAVING TIME
SAVING CONSUMPTION
STOCK ACCURACY
ERGONOMICS
LESS ADMINISTRATION

TouchPoint Medical specializes in medication storage and management and point of care medical equipment for hospitals and nursing homes. This brochure provides an overview of the various products and applications for the medical sector. For the implementation of our solutions, we also have in addition to durable quality products, a team of project coordinators, technical engineers, programmers and helpdeskers. Customer service & support: 24 hours a day / 7 days a week.

MEDICATION CABINETS

Computer Managed Medication Cabinets

Our Automated Dispensing Cabinets (ADCs) can greatly contribute to increasing the medication safety and to improving the medication logistics in order to avoid medication errors.

Advantages of ADCs

	Access control
	Reduction of medication errors
	Availability 24/24
	Custom reporting tools, stock optimization
	HIS integration options
	Tracking of consumption, stock levels, and expiration dates
	Financial loss reductions due to improved registration
	Reduced administrative work, thus increasing time for patients

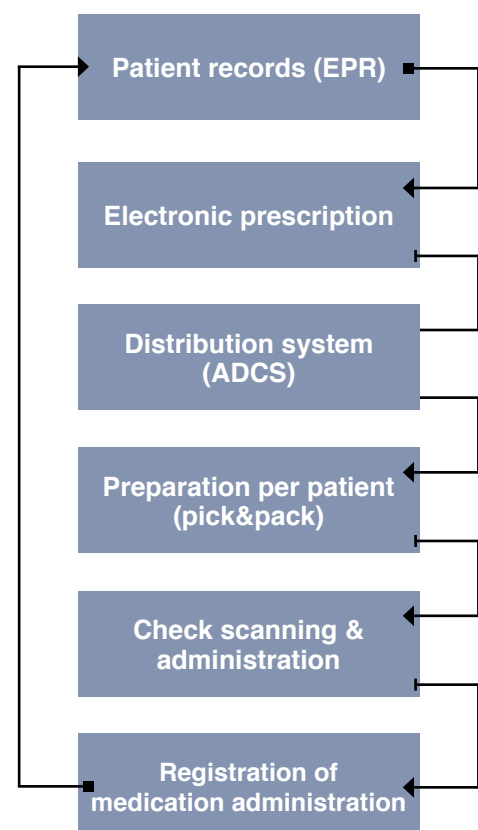

Cabinet types and security

According to the required **security level**, the products can be stored in our cabinets :

- per unit
- per product
- per drawer
- free picking

The cabinets are available in various **sizes** and **colours**, and are **modulable**.

Integration e-prescription

MEDICATION SECURITY

we take care of it together

MEDICATION CABINETS

Security per unit

Dispenser and mini-dispenser

Only the requested product and quantity are released via LED display

MEDICATION CABINETS

Security per product

Compartment Control (CC) and compartment cabinets

For medicines needing additional safety, it is convenient that drawers can be divided in compartments and that each compartment can be locked and unlocked separately.

Here the user only has access to the requested product.

Security per drawer

E-Lock drawer cabinets

E-Lock drawer cabinets provide durability and user-friendliness, with numerous drawer depth arrangements and dividing options. With E-lock, the standard drawer cabinet is provided with individual drawer locking and a LED notification strip.

MEDICATION CABINETS

Free Picking Plus

Consumption and stock control via push buttons and barcodes.
