

INNOVATIVE DESIGN TAILORED TO SUPPORT YOUR ADVANCED SOLUTIONS

- > TouchPoint Medical-exclusive dual monitor bracket provides easy adjustment and allows for landscape and portrait viewing options
- > Accommodates large monitors and technology needed for advanced applications such as telemedicine, PACS imaging and vitals data capture
- > Flexible integration options to accommodate your technology
- > Compact footprint and unmatched ergonomics
- > TouchPoint Medical-exclusive Microban antimicrobial protection

AccessPointTM
Mobile Computing

Shown with 24" monitors.

Dual monitor configurations are equipped with easy-to-position, one hand adjustment. Easily collapse the dual monitors while transporting the cart.

ERGONOMIC CONTROL

- > Monitors collapse simultaneously with one hand to easily fit through doors or tight spaces.
- > Monitor configuration provides separate viewing access for caregiver and patient.

TECHNOLOGY INTEGRATION

- > Enables remote delivery of specialized care and timely diagnostics
- > Mounts a video or web camera above the monitor, facing forward; camera travels with the monitor through its entire range of motion
- > Configured to accommodate all your advanced application equipment; large lower storage is perfect for storage of critical diagnostic appliances

† MICROBAN® antimicrobial protection does not protect against disease causing microorganisms.

201611-FY-TP Medical AccessPoint Dual Monitor

Grow. Transform. Improve.

Because the needs of your facility are likely to change as you progress through the HIMSS EMR adoption model, TouchPoint Medical AccessPoint was designed to be field-upgradable for any application. The flexibility to add medication storage and a barcode scanner to support BCMA or dual monitors for PACS allows you to maximize the return on your mobile computing investment.
